Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Online

Brief describe the provision in LMS to be used by HEI :-

A dedicated team of trained counsellors are deputed for online counselling the students. The students would be provided complete information through call, email and chat facility provided on the website. We would also conduct online webinars with prospective students and provide complete information for the programs enabling students to enroll.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

Assessment mechanism	☐ Assessment Scheme for Continuous Evaluation and Term End Exams can be created in LMS system. ☐ The assessments are based on the learning outcomes for every course / subject. ☐ The rubrics board for every course based on learning outcomes provided in the LMS provides clear understanding for the students based on which the students have been evaluated. ☐ Formative Assessments (Continuous Evaluation): 25% Weightage : • There are 3 Assignments as part of continuous evaluation. • One Objective Type Assignment, One Subjective Type Assignment and One Discussion Forum • Passing 40% average for each subject: 10 out of 25 Marks • For each assignment / internal assessment; the student needs to verify himself/herself through aadhar card authentication as part of learner authentication. • The student enters the OTP in system then proceeds for assignment submission. ☐ We have the following assessments as part of continuous evaluation. ☐ Assignment 1: Objective Type: 10% Weightage (10 Marks) • The Question Bank of around 250 questions are uploaded in system with answer keys. • The system allocates randomized 50 questions for the said assignment. • Duration 1 Hour- 50 Questions – Passing Criteria 40% • The system evaluates the assignments based on answer keys which were uploaded during creation of question bank. • The scores of objective type of assignment is displayed immediately after assignment submission. ☐ Assignment 2: Subjective Assignment: 10% Weightage (10 Marks) • The Question paper is set by the faculties and updated in the LMS. • A Plagiarism Tool is embedded in LMS wherein a check is maintained to ensure that the students do not submit plagiarised response for the said assignment. • Before submitting the said assignment the student would need to go through the plagiarism check, in case the response sheet has more than 10% of plagiarized content the student would have to re-submit the assignment. • The said subjective assignments are allotted to evaluators for evaluating the said assignments through the system. • The evaluators updates the scores in the LMS for respective students. ☐ Graded Discussion Forums: 5% weightage (5 Marks) • The students would be provided with discussion forum topics for every subject as published in LMS. • The students need to participate in the said discussion forums and submit their response. • The Faculty validates the response and only then publish the same on the forum enabling other learners to view the respective response and learn in the said process. • Total 5 Marks the faculty allocates the scores based on the quality of response submitted on knowledge parameter. ☐ Summative – Term End Examinations: 75% Weightage (75 Marks) • The Online Exam Form Slot Booking Facility is provided for every student. • The exams are scheduled for 10 days with 5 slots per day. • Each exam is of 90 minutes duration. • The University declared the exam dates which are scheduled during 10 days in the exam month. • The student has the flexibility to select the date, subject, time and city for exam submission. • After submission of exam form the student gets an auto-generated email with the slot booking confirmation. • The term end exams is a mix of objective type and subjective type of questions. • There would be 54 questions in objective type of questions and 3 subjective type of questions – Total 75 Marks • The question bank (250 per subject) for objective type of questions for every subject is uploaded in the system for randomization. While the question paper for subjective question as set by the faculty is updated in the system. • Online Remote Proctored Examinations are conducted for every student. • Online Proctor verifies real time online, check and authenticates the student and then allows him to enter the exam zone. • One Online Proctor can monitor upto 50 students during the online exam process. • Unique Password for every exam is sent to registered students on their email id. • Only after Online Proctor authentication and punching the security code the student can start with online exams. • Security Features during exams like AI Facial Recognition, Navigation Control, Image Capturing during exams, live online monitoring during exams. • Image Capturing during exams and live streaming during exams for monitoring the online exams. • Dashboard for examinations with reports and student images for every exam • After the online exams the system evaluates the objective type of questions while the subjective response sheet are allotted to the online evaluators for evaluation. • The evaluator enters the scores for subjective assessments in the system. • The scores can be downloaded from the system by the controller of examination.
Identified technological interface and interoperability	With different technological instruments such as plagiarism, questions banks, etc., the LMS has the versatility of integration and interoperability. It is integrated with the Aadhar Verification tool that is used in real time while logging in, taking assessments & Assignments, etc. The interfaces are very intuitive and user-friendly, and when sharing data, LMS meets usability requirements for interoperability. The LMS is able to share content, questions, evaluations and results through APIs among different platforms, real time if required. LMS is compatible with all the popular and latest versions of Web Browsers like Chrome (recommended), Firefox & Internet explorer.
Learner's Authentication Requirements	During the registration process, the students need to validate themselves based on Online Aadhar authentication process, wherein they receive an OTP which students need to enter during registration process. • The student also submits complete documents right from 10th Std., 12th Std, Degree Mark Sheets, Govt. Photo Id, name change document (govt. gazette if required for name change) • During the continuous evaluation as well the students are required to validate themselves through Aadhar Authentication process in LMS, before they submit the assignments. • For Examinations the Security Features like AI Facial Recognition, Navigation Control, Image Capturing during exams, live online monitoring during exams. Image Capturing during exams and live streaming during exams for monitoring the online exams. • The security features are implemented to maintain the credibility and transparency to student and university at all levels. The IP based tracking helps us to identify the student / user who has logged in along with related aspects.
Learner Registration - through a web application	Learner Registration: • The student has to verify himself / herself through Aadhar Card Validation Process. • After verification through the Aadhar Card OTP number, student proceed for registration process through the My Account created for the student. • Student enters information for all relevant fields necessary for registration process in web application form. • Student upload all the necessary documents as per mandatory requirement which includes aadhar card/govt id photo proof along with passport size photo etc. • After uploading the documents in student account the student proceeds for making the online fees payment. • The student downloads the pre-filled application form based on inputs entered by the student. • The student signs the admission form and the same to university for processing the application. • The students are registered provisionally in initial stage as the university team checks and verifies the documents submitted for admission purpose. • The student receives the LMS login id and password on his/her registered mail id within 7 days after document verification process is completed and the student is enrolled.

Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	▢ The active engagement of learners in Online mode would be through participation in discussion forums, assignment activity and the synchronous live interactive online sessions conducted through the LMS. ▢ The Analytics provided in form of reports and dashboard provides the faculties the details for student engagement. The student attendance is marked in system for every activity and we can download log reports from LMS. ▢ The instructions for accessing the course along with Academic Calendar is provided in LMS for easy understanding. ▢ The calendar for Live Sessions and Discussion Forum is published well in advance enabling the students to attend. ▢ Regular Alerts and Notifications (SMS, Email and Call): For Live Online Interactive Sessions, Discussion Forums, Practice Exercise, Assignment Submissions and Term End Assessments. ▢ Student has the facility to connect with the Mentor in case of any queries. ▢ Student has the facility to connect with our Faculties in case of any academic queries.
Payment Gateway –using Digital Payment system	▢ The instructions for accessing the course along with Academic Calendar is provided in LMS for easy understanding. ▢ The calendar for Live Sessions and Discussion Forum is published well in advance enabling the students to attend. ▢ Regular Alerts and Notifications (SMS, Email and Call): For Live Online Interactive Sessions, Discussion Forums, Practice Exercise, Assignment Submissions and Term End Assessments. ▢ Student has the facility to connect with the Mentor in case of any queries. ▢ Student has the facility to connect with our Faculties in case of any academic queries. Using Digital Payment system ▢ We have integrated the online payment gateway on university website. The students can make payments through Debit card, Credit card for making the online payment apart from NEFT payments. ▢ We are using Atom Payment Gateway for Online Payments
Tracking the delivery of a Course or programme	Apart from the complete asynchronous course ware for our online programs which is already available for the students through the LMS, the delivery of course for online programs is in line with the norms provided by UGC. The Synchronous Online Sessions and the Discussion Forums; both have been mapped to our delivery calendar available in the LMS. The calendar for delivery of course for both components (Live Synchronous Online Session and Discussion Forum) is accessible by students enabling them to attend the same. The faculties have been trained to deliver the course through online mode in each component : Live Synchronous Online Session and Discussion Forum. The reports through the LMS system provides complete information for number of sessions conducted and pending sessions. It also provides report on each session, date / time, attendance of the learners and their log reports.
Technical Know-how or Skills Requirements	Our Technical Team for Development of e-Content/e- Modules, delivery of online programs and Admissions including Examinations; conducted in house training and they provided hands on practice to the staff members involved in delivering the online programs. The LMS system have various users like System Admin, Program Co-ordinator, Course Co-ordinator, Course Mentors, Examiners apart from Students. The process and the skills required are as follows: a. Production of E-Content / Digitization of the content in multiple formats: ▢ Skills necessary for conversion of base content from word file to PDF, HTML5, Scorm Files using various tools like adobe illustrator, articulate rise, storyline etc. In case of videos, skills necessary for editing the raw video, audio /video editing facilities adding multi media components using tools like aftereffect, camptasia, adobe flash etc. b. Creation of Online Course : Skills : Basic Understanding required for creating the online course in LMS system with final version of approved content at unit / chapter level within a course/subject. For this process our technical team has guided our staff members to create online courses using various formats of e-learning content as per the four quadrant approach of UGC. • Within the LMS, the program co-ordinator creates the course structure as per the approved program structure by the university. • Each Semester have buckets of subjects as per program structure. • From the Course Master, the Re-usable Learning Objects (Online Course / subject with courseware) as created by the respective Course Co-ordinator for the subject is cloned to the program structure of respective program. c. Admission Process: Skills Required : Basic Internet Skills are required for this activity. Learner Authentication through Aadhar enabled feature during the online registration process. The students registers online through the web application and submits the documents online through the web application. The university staff has been trained along with hands on practice to check the documents submitted by the learner for admission purpose. After eligibility confirmation the students are provided with login credentials for accessing the Online Program through the LMS. d. Delivery of Online Programs: The LMS has the provision to deliver Synchronous Live Online Sessions and Discussion Forums. Skills : Basic Understanding acquired through Practice on our LMS. ▢ Synchronous Live Online Sessions: The Faculty / Course Co-ordinator prepares a lesson plan in form of PPT for a specific module / chapter for which they intend to deliver online during the Live Online Synchronous sessions through the LMS system. • The topic / chapter for which the Online sessions need to be conducted; the faculty is trained for scheduling a live class on particular date and time as per approved live online class calendar by university authorities. • The lesson plan is uploaded in LMS for that specific Live Online Synchronous Class Session and selects the students registered for the said course. • An automated alert mail invitation goes to registered students of that course. • The students can attend the live synchronous online session as per the calendar published for the said classes. • The calendar can be published well in advance enabling all the students to be prepared for their forthcoming online classes. ▢ Discussion Forum : The Faculty / Mentor prepares a Topic List enabling students to discuss on given topic. Skills : Basic Understanding acquired through Practice on our LMS. • The Faculty/Mentor is ready to review the response online within the said period within which the discussion forum is scheduled. • Only moderated response from students is approved and published in discussion forum by the faculty enabling other students to view and revert in the discussion process. Thus helps the learner to learn in collaborative way. e. Examiner : Skills : Basic Understanding acquired through Practice on our LMS. The staff members handling the examiner process, have been trained to ; • Create Assessment Scheme • Upload question banks in form of MCQ format, subjective questionnaire • Create LMS system based continuous assessments. • Evaluation of Subjective Assignments • Result Publishing in Grade Book of our LMS • For Examinations refer the complete process as explained in point above in Assessment Mechanism
